

## To Our Dear Becoming Neighbours Community,

### Greetings of Summer One and All!

We are delighted to be sharing with you this very *Special Edition of Fridge Notes* which we hope captures what was a picture perfect day for **Celebrating Canada Day**. Immersed in the gift of the BEAUTY of this day, we felt not only united with so many of you but also in solidarity of spirit with those of you who were not able to be present. What a graced time it was!

With the gracious support and generosity of so many, 140 people from twenty six different countries gathered under the green magnificence of the High Park Forest to experience the joy of our “Canadian-ness.” The ABUNDANCE of this day was due to hearts and hands – too numerous to count – but you know who you are!

As summer progresses along its path of long, hot, hazy days, may all of us be revitalized by the Spirit who guides us in our lives and gives us hearts of compassion leading us to more fully appreciate the grace of “Becoming Neighbours” with and for each other and with our Earth.

*With solidarity for the journey,*
